AMIGOS for CHRIST

3RD QUARTER HIGHLIGHTS

Celebrating Clean Water in TINTAL-HUISPANTE

In September, we celebrated the inauguration of Tintal-Huispante's water system. The road to clean water for this community was not smooth; roadblocks encountered on the way had community members fearful that the transformation they had hoped for was impossible. But God is faithful, and the hope, commitment, and generosity of the people on the path lit the way.

The story of Tintal-Huispante is a living example of how God is always working through His perfect plans for each of us.

Click here to watch.

TRANSFORMATION HIGHLIGHTS

WATER FOR CHINANDEGA

El Obraje and La Fragua broke ground on their water systems!

Tintal-Huispante celebrated the inauguration of their water system!

5 Water Systems Completed

9 Water Systems in Progress

That's 724 families who now have 24/7 access to clean water and 1,057 on the camino!

LIFE-CHANGING HEALTH INFRASTRUCTURE

221 Modern Bathrooms that break the cycle of parasites caused by latrine use

80 Clean Air Kitchens that prevent respiratory disease by reducing smoke inhalation in the home

Bathrooms and kitchens are key components of our Plan 7 model, which pairs infrastructure improvements with relationship building and coaching to create lasting habit change that improves families' health.

Primary school attendance celebration activity in Manzanillo to promote education

A community member in San Miguelito is visited by his Community Development Advocate

A neighborhood bazaar in La Danta to raise funds for community development projects

School supplies provided to youth leaders and tutors who mentor primary students in La Concepcion

Plan 7 Progress

COMMUNITY NAME	FAMILIES *Number of families/homes in community*	PEOPLE *Number of individuals in community*	YEAR *The year of Plan 7*	TOTAL Q3 *Progress toward 100% by end of 7 years*	TARGETED % RANGE *Ideal total range based on year*
Casa Blanca	83	260	2	25%	40-60%
El Manzano	181	397	2	51%	40-60%
Los Balcones	126	384	2	47%	40-60%
Santa Pascuala	80	213	2	37%	40-60%
La Concepción	124	506	3	83%	60-73%
Carlos Fonseca	95	438	3	78%	60-73%
El Bejuco	135	560	4	89%	67- 80%
Mayocunda	69	257	4	89%	67- 80%
La Danta Aserradores	29	141	5	85%	73- 87%
Manzanillo	33	158	5	89%	73- 87%
San Miguelito	145	754	5	91%	73- 87%
Chaparral	55	294	6	88%	80-93%
Picota	147	630	6	90%	80-93%
La Danta	95	407	7	91%	83-100%
Espabel	78	435	7	87%	83-100%
Total	1,475	5,834			

GREEN: On track with Plan 7
YELLOW: Moderate setbacks
RED: Challenges to overcome

Preparing for Graduation

This year, the communities of La Danta and Espabel will graduate from our community development model, Plan 7! We have walked alongside 178 families in these communities to accomplish goals in the areas of leadership, water & sanitation, health, education, and economic development. These families have experienced full **life transformation** over the last seven years, and **they are ready to lead their own development** in the years to come.

INVESTING IN THE NEXT GENERATION

The 238 students at the Amigos Academy are so excited and inspired by their by the opportunity to learn and that shows in their 99% daily attendance rate!

We hit an exciting construction milestone this quarter: the Amigos Academy Middle School has a roof! Over 70 people from 8 mission groups have worked on the Middle School construction this year. Every brick laid and every bag of cement poured gets us a little closer to welcoming our first class of 8th graders in 2027!

This quarter, our high school and college Leaders in Action students earned an average grade of 85%. In addition to receiving academic scholarships to top area schools and universities, These students participate in personal development and formation activities. This quater's retreat was focused on living out values that make Christ more visible: love, service, humility, and faith.

The Amigos Baseball Academy is leveling up! 180 kids are playing across all ages, developing as athletes, students and leaders. In September, a team traveled to Miami, Florida to play friendlies against American RBI teams and tour the stadium and facilities used by the Miami Marlins.

OPPORTUNITY THAT MULTIPLIES

MEET JUANA

For 11 years, Juana Francisca walked from community to community in El Bejuco selling buñuelos, a traditional Nicaraguan pastry, to help support her family. Overnight, this job became her family's only income when her husband's health deteriorated due to chronic kidney disease, and he was no longer able to work.

In January, Juana received seed capital funding through Business for Transformation. She used the funds to purchase her first motorcycle, allowing her to reach more communities safely and efficiently. **With the training and mentorship that came with it, she's since doubled her daily sales.**

"The economic development advocates from Business for Transformation are a blessing from God," Juana says.

Her family is now looking ahead together; her husband has started planting, hoping to grow and sell their own produce.

This year, 9 new small business owners like Juana have received seed capital funding, gaining access to financial education and resources to help strengthen their businesses.

Participants in this program are making 25% higher wages than the Nicaraguan national average, creating employment opportunities for their neighbors, and providing for their families.

So far in 2026, 512 visiting missionaries and 40 Nicaraguans from local communities have worked juntos to make transformation possible. Gracias!
